

## Ancillary Suspension Products

DA6337

### DA6337

- > Long travel rear shocker absorber mounting kit
- > Suitable for Defender 90/110/130 /Discovery 1 & Range Rover Classic
- > To be used in conjunction with DC6000LL
- > Laser cut, jigged and computer welded with zinc plated and powder coated finish

The standard pin and eye shock absorbers don't have the necessary articulation for extreme off road conditions and the answer is to use pin and pin shock absorbers. If you use our Cellular Dynamic Plus 5 shock absorbers they offer better articulation. **Note** - On Defender Td5 the fuel filter must be moved.

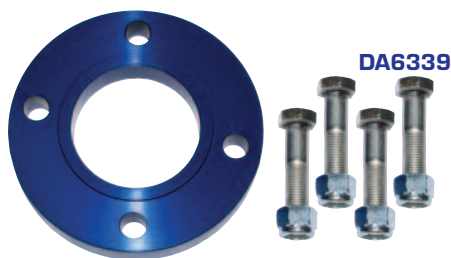

DA6338

### DA6338

- > Heavy-duty front shock absorber turret rings
- > Suitable for Defender/Discovery 1 & Range Rover Classic

These robust & heavy-duty turret rings are made to replace the existing standard turret rings.

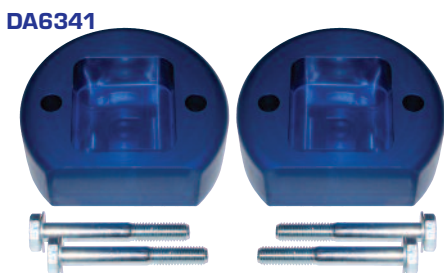

DA6339

### DA6339

- > 15mm prop shaft spacer kit
- > Suitable for Defender/Discovery 1 & Range Rover Classic
- > Machined from billet aluminium and anodised deep blue

When suspension lift kit is fitted it increases the distance between the transfer box flange and the diff flange. This increased distance can cause the prop shaft to run out of spline travel. Fitting this 15mm prop spacer helps return the prop shaft to its normal operating length therefore allowing full spline travel which also helps reduce the characteristic "binding" of the yokes when a prop shaft is over extended.

DA6341

### DA6341

- > +2" Spacer blocks
- > Front
- > Discovery 2
- > Machined from high quality aluminium and anodised deep blue
- > With this kit you are able to retain the standard springs and shock absorbers
- > Use in conjunction with DA6342

DA6342

### DA6342

- > +2" Spacer blocks
- > Rear for
- > Discovery 2
- > Machined from high quality aluminium and anodised deep blue
- > Use in conjunction with DA6341

This kit enables you to retain your air springs yet give your vehicle the desired 2" lift. This kit is complete with everything needed to convert; it even includes the tap and die set! We recommend that this kit be fitted in conjunction with DA6341, DA4198 or DA4199.
